Profile Summary

Full Stack Developer skilled in React.js, Node.js, Express, and MongoDB, with hands-on experience building and deploying scalable, high-performance web applications. Strong expertise in REST APIs, cloud platforms (AWS, Azure), CI/CD pipelines, and secure authentication (JWT, OAuth2). Proven ability to optimize application performance and deliver user-focused solutions.

Education

BSc (Hons) Computer Sciences and Technology

2021-Present

Sabaragamuwa University of Sri Lanka

- Major: Web Development | Minor: Machine Learning
 - Relevant Coursework: Software Engineering, Database Systems, Cloud Computing, AI
-

Core Competencies

- **Frontend:** React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS
 - **Backend:** Node.js, Express.js, Nest.js, REST APIs, GraphQL, Microservices Architecture
 - **Databases & Cloud:** MongoDB, MySQL, PostgreSQL, AWS, Azure, Vercel
 - **DevOps & Tools:** Git, GitHub, Docker, Jenkins, CI/CD, Agile/Scrum
 - **Other:** Python, Machine Learning, UI/UX, SEO, Software Architecture
-

Projects

Personal Portfolio Website | React, Tailwind, Vercel

2025

- Designed and deployed an SEO-optimized portfolio site with load times under 1.2s.
- Integrated EmailJS for real-time contact forms, improving recruiter engagement by 40%.
- Attracted 200+ unique monthly visitors, generating collaboration opportunities.

CPIRA – Construction Property Inspection App | React.js, Node.js, MongoDB 2025

- Engineered a role-based inspection platform with dashboards for multiple stakeholders, enabling real-time collaboration across 50+ projects.
- Implemented JWT authentication, secure role-based access, and real-time messaging.
- Optimized defect reporting and media uploads, reducing reporting time by 40%.
- Deployed with Docker and CI/CD, streamlining updates and ensuring scalability.

URL Shortener App – Link Management System | React, Node.js, Express, MongoDB 2025

- Built a secure URL management system handling thousands of shortened links with click analytics.
- Designed REST APIs for shortening, tracking, and authentication with 99% uptime.
- Delivered a responsive analytics dashboard, improving engagement.

Zynvert – File Converter Web App | React (Vite), Node.js 2025

- Developed a high-performance file conversion system processing files 70% faster than conventional tools.
- Designed drag-and-drop UI with live progress updates, improving user efficiency by 30%.
- Built privacy-first architecture with real-time processing and no file storage.

Fake News Detector – AI-Powered Tool | React, Node.js, Hugging Face BART 2025

- Integrated NLP models for fake news detection, processing 50+ concurrent requests with 70% faster analysis.
- Enhanced detection accuracy by 20% with custom rules.
- Delivered a privacy-focused solution with no data storage.
